

Integration with Imagination

COMPLEX ASSEMBLIES

GENESE
GLOBAL
GROUP
INC.

From material recommendations and procurement through final assembly, testing and timely delivery, we add value every step of the way.

In addition to the following manufacturing disciplines, we also help reduce administrative costs by streamlining paperwork, reducing multiple purchase orders and integrating with your backend systems:

- Modern Cellular Assembly precepts
- Materials, parts and component integration
- Global sourcing
- Design improvements
- Tolerance evaluation
- Testing/process capacity study
